*Abstract:* NCES annually publishes comprehensive data on the finances of public elementary/secondary schools through the Common Core of Data (CCD). For numerous years, these data have been released at the state level through the National Public Education Financial Survey (NPEFS) (OMB#1850-0067) and at the school district level through the Local Education Agency (School District) Finance Survey (F-33). (OMB# 0607-0700). There is a significant demand for finance data at the school level. Policymakers, researchers, and the public have long voiced concerns about the equitable distribution of school funding within and across school districts. School-level finance data addresses the need for reliable and unbiased measures that can be utilized to compare how resources are distributed among schools within local districts. Education expenditure data are now available at the school level through the School-Level Finance Survey (SLFS). The School-Level Finance Survey (SLFS) data collection is conducted annually by the National Center for Education Statistics (NCES), within the U.S. Department of Education (ED). In November of 2018, the Office of Management and Budget (OMB) approved changes to the SLFS wherein variables have been added to make the SLFS directly analogous to the F-33 Survey and to the Every Student Succeeds Act (ESSA) provisions on reporting expenditures per-pupil at the local education agency (LEA) and school-level. This request is to collect SLFS data for FY 2021, 2022, and 2023.
